

Africa University Report

Grace and peace to you in the name of Jesus Christ.

2025 was a year of robust growth and momentum for Africa University (AU). In June, AU graduated its largest class ever—622 students from 20 African countries. In August, the university welcomed its most diverse incoming class, with students from 30 nations. They study in four colleges, a law school, and two institutes on a modern, fully debt-free campus built for learning and community.

Thank you to the congregations of the Virginia Conference of The United Methodist Church for your dedicated support of Africa University. In 2025, Virginia Conference congregations generously invested in the Africa University Fund at 82.1 percent. Your steadfast commitment is making a real difference in forming disciples who love boldly, serve joyfully, and lead courageously—across Africa and around the world. Among them is a freshman student from Zimbabwe, training for community impact as a social worker, thanks to a Virginia Conference endowment at Africa University.

Highlights from 2025:

- A self-funded solar power plant now supplies 100 percent of AU campus electricity, easing pressure on Zimbabwe's national grid and benefiting nearby communities. The plant is saving Africa University almost \$250,000 a year in electricity costs.
- A new collaboration with the United Nations University Institute for Water, Environment and Health advances research in food security, sustainable agriculture, and environmental resilience. Faculty and graduate researchers are developing evidence-based responses to climate stress, water insecurity, and agricultural vulnerability—equipping communities to adapt and thrive.
- An expanded partnership supporting applied research with The United Methodist Church's Global Ministries agency focuses on at-risk agriculture and malaria prevention, strengthening rural communities.
- In partnership with United Methodist Communications, AU is training African church communicators in digital engagement and media strategy—strengthening the Church's witness across diverse contexts .
- AU's School of Law moot court team earned the honor of representing Africa at the World Round of the Price Media Law Moot Court Competition in the United Kingdom in 2026.

These accomplishments are directly connected to your generosity. As this quadrennium continues, Africa University thanks Virginia Conference congregations for striving to achieve 100 percent AUF funding each year. AU also invites churches to explore becoming “Keystone Congregations” by committing \$7,000 annually in scholarship support for one undergraduate student—and walking alongside that student with prayer and encouragement throughout their degree journey.

Africa University remains a living expression of our worldwide connection. Because you pray, Virginia Conference United Methodists, leaders are called and formed. Because you give, research advances. Because you believe in Africa University, hope expands across nations.

Thank you for standing with AU. Together, we are shaping a generation equipped to lead Africa—and the Church—into a resilient and faithful future.
