

# Disciple-Making in a Digital Age

How to leverage Online Tools to  
Build Community and Make Disciples

**JUNE 24, 2020**

9:30-11:30AM

via Zoom

The pandemic has taken away the spaces and pathways we have used to make disciples and it has also interrupted the simple, unprogrammed moments that foster community (which is essential to disciple-making) in our churches.

But by using online tools, you can bring people together to build trust, collaborate, have fun, and most importantly, to make disciples. This webinar will introduce a discipleship framework leading to mission that will thrive in any season. It will also incorporate the key elements to forming online communities and the practical tools to get started on both.

Join Matt Lake, Senior Pastor of First UMC in Williamsport, PA and Chris Morton, Director of Strategic Initiatives for Fresh Expressions US for a catalytic session.
